Um... hello! I've uh,
never made one of these
before, but I wanted to
try it out!

My name is Ally! You
can um, ask me things!...
...I guess...

Anonymous asked:

Hi there! Care to introduce yourself properly?

ALLY STAR CORNELIUS

18 - she/kit - Grade 12

"#1 Space Fan"

Well, my name is Ally Cornelius! I love astronomy and sci-fi stuff, it's my favorite thing ever!

Anonymous asked:

Hi Ally! Nice to meet you! Your room looks really cool, do you like space a lot too? I think it's super cool!

YES!!!! I wanna go to space someday! I wanna explore the whole universe and find aliens!!!

Anonymous asked:

Who's your family? What are they like?

Ahhh... my family... is... well... there's a lot of us. Like, a LOT. It gets kind of stressful sometimes...

Like, I can't even list off everyone without taking way too long, but trust me, there's a lot.

hazygonuttz asked:

are you ever intimidated by the number of siblings in your family or have u grown accustomed to it? /lh

It... is intimidating.
Like I said, stressful.

It doesn't help that
SOME of us are
VERY IRRITATING.

Anonymous asked:

A blog, huh? Isn't that a bit... Archaic?

So... you're calling me archaic for having a blog in 6047 when you're on the blog's site, discovering my blog, in 6047?

Great logic.

Anonymous asked:

ally whats your favorite constellation!!!

My favorite constellation is Celestian, which is made up of ten stars and makes up one big kinda fucked-up looking star shape!

Anonymous asked:

ally do you know any cool space facts

There's a star called 66T.N-76 that is 5,600 times the size of Sims, our sun. It's the largest known star in the universe. I feel like if we were anywhere near it, it would be a perfect simulation of the experience of being my younger brother's height.

flooftism asked:

where did the name ally come from

My allotpun is the word alicorn. Alicorns are winged unicorns! While regular unicorns can give themselves wings, those wings are not naturally there and have to be created with magic. I hatched with my wings already attached, so I'm not a unicorn, but an alicorn!

And my middle name is Star because, well, stars are important to my parents. And I happen to have stars on my wings!

ashf1re asked:

yo ally!!

whats ur fav color? do you look up to anyone?

My favorite color
is purple!

And honestly,
I think I look up
to our mom the most.

zlugbugs asked:

What are your favorite things to do?

Mostly reading, but I also really like playing piano! I like singing too but... I'm still expanding my range, I'm not confident about it.

Anonymous asked:

Ally! Are you old enough to be saying those swears? >:[

Of course I am. I'm 18 and I'm gonna be 19 in Jecember. How old did you think I was???

Anonymous asked:

Could you tell us a bit about your mom?

Well, my mom is named Uni and is half-unicorn. My grandma is a full unicorn, I just got lucky to hatch as an alicorn.

Anonymous asked:

Does your horn really do magic?

It does! I have magic!
I can do almost anything
with it! It's really fun
and useful!

Anonymous asked:

Out of the four men who are your parents, which is supposed to be mom...?? /Gen confused

Who told you that all four of my parents were men? I only have one male parent, my dad Barry.

Anonymous asked:

what year is it where you are?

Is this question a joke? Or a prank? Because if not, that's the scariest thing I've ever been asked. It's 6047. I hope you just have amnesia.

Anonymous asked:

ever seen a real comet

Nope! But I'm always
looking!!!!

Anonymous asked:

Hello! Ally! What's your favorite memory from growing up!!!

One night, when I was little, my dad sat in the backyard with me and explained space and the universe to me.

Anonymous asked:

Hello! Ally! What's your favorite memory from growing up!!!

He told me how the universe was created, about all the things in it, how it's grown and changed, about galaxies and solar systems...

...ever since that night I've wondered what it's like out there. Sometimes I feel like it's calling to me... like I belong somewhere else, and not here.

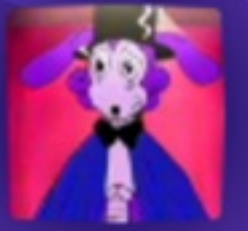

Anonymous asked:

what does barry think about your magic?

...what does he "think" of it? Um... I guess he thinks it's cool? He's never really said much about it. Why, should he have?

autismtweek asked:

may I ask what your parents pronouns are? just so that us and the fellow askers can get em right :3

My dad, Barry, uses he/him pronouns only.

My mom, Uni, says she doesn't care what pronouns people use for her.

My neardad, Doom, uses he/they pronouns.

And my nearparent, Polly, uses he/she/they/it pronouns.

You could at least pretend
to be happy to see me for
once.

Anonymous asked:

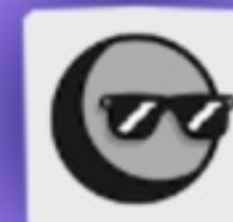

Why do you look like that Slite?

E-EH??? W-what's that
supposed to mean?!???!...
...D-DID EVE SEND THIS?!

Anonymous asked:

What are some of your interests, Sly?

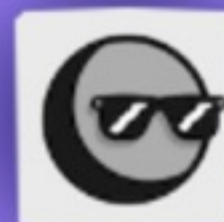

O-oh. Um.

I um... I like comics
and drawing. And um...
making comics...

Anonymous asked:

Sly, how tall are you?

.....d-d-d-do
I HAVE to answer
this...?

Anonymous asked:

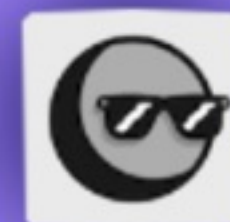

sly what are your favorite comics

I like lots of different ones! I know superhero comics are kind of a typical answer, but I do like them a lot. I also like fantasy comics!

Anonymous asked:

slyyy what do u like to draw?? :3

I like making comics that are character-heavy and plot-driven! I love designing new characters and crafting worlds around them and doing worldbuilding stuff! I-it's my biggest passion!

Anonymous asked:

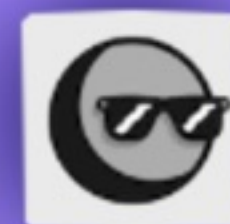

sly show us your art

NO.

Anonymous asked:

Why not sly? We promise not to judge!

B-because I don't like
showing people my art. I
never show it to anybody.
I'm not a very good artist...

tuneyartz asked:

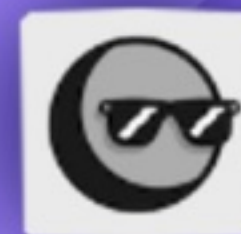

What's your favorite planet?

ANY PLANET BUT
THIS ONE, BECAUSE
EVE IS ON THIS ONE.

Anonymous asked:

Nerd

Using "nerd" as an insult just goes to show that you think there's something shameful about someone being enthusiastic and passionate about their niche interests, and I think shaming others for being passionate about something is far more shame-worthy than being passionate itself. Passion is something that should be admired. It's a gift. To not be passionate is a very flavorless life.

Also Eve already called me that 27 times today so you can't.

doatunny asked:

why do you hate eve so much ?

.....o-okay, I don't HATE her.
Hate is an awfully strong word.
I can't stand squeak, but I don't
hate squeak. I-it's because she's
really mean to me. When you hate
somebody, you don't want them
around you.

Is that your way of admitting
you still care about Eve despite
all her bullying and mistreatment
in a wholesome big brother fashion?

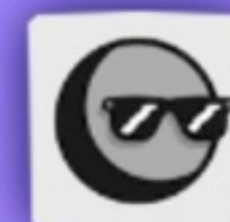

By saying you still want
her around you?

Yeah, all around
me like a chewed up
cog toy.

Anonymous asked:

hey slite are you the smaller one?

L-look, I'm PERFECTLY
AWARE of how short I

keep reminding me.

Anonymous asked:

Nerd can also be taken as a compliment you silly little smart boi of a nerd.

...r-really? I'm... I'm not used to people besides our parents and Marco complimenting me...

Anonymous asked:

Sly! Which of your family members do you look up to the most?

The person I look up to most in our family is without a doubt my older brother Marco. He's so mature and responsible and he's so smart and cool, he's so good at techy stuff and he makes video games and has a job and... and....
...he's just like an idol to me.

...b-but I don't
think I'll ever be as
cool as he is. I'm too
big of a loser.

Anonymous asked:

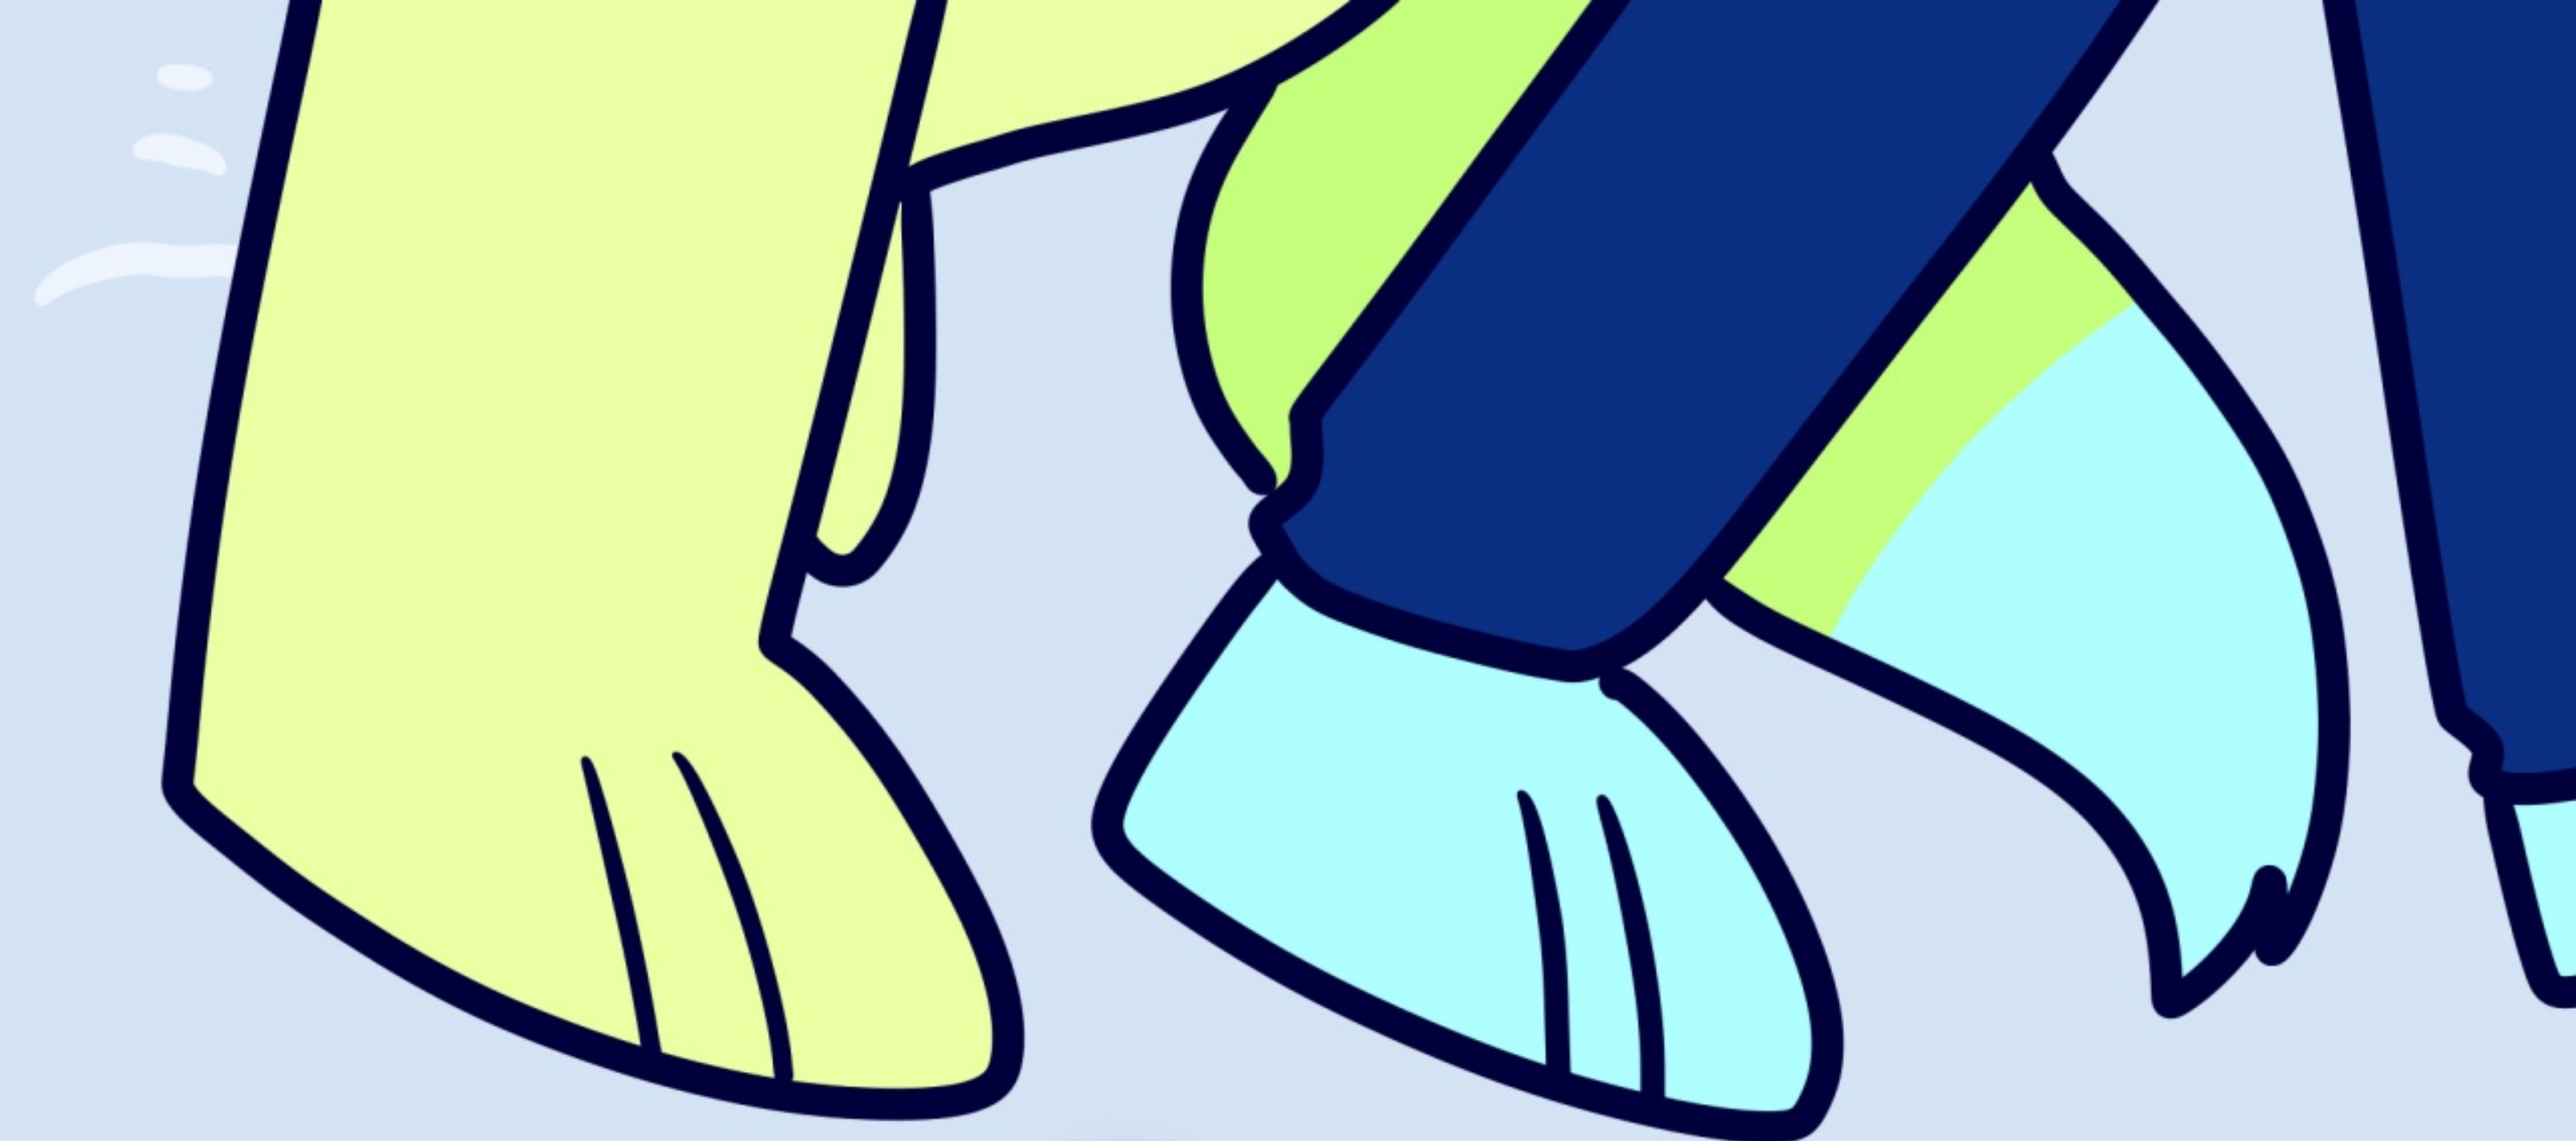

Hi Slite! What'd you come to see Ally for?

I came to tell you that dinner's soon, and remind you that Carrie and Hemera are coming over with Chloe, Norma, and Blair.

So you should get ready.

I don't know why
family visits always
have to be such a
big deal.

...s-shut up.

What about them
feels like a big deal
to you? Having to
leave your room?

I feel like we have this conversation every time, but I'm going to say it again. Just because Norma's here, that doesn't mean you can act however you want to.

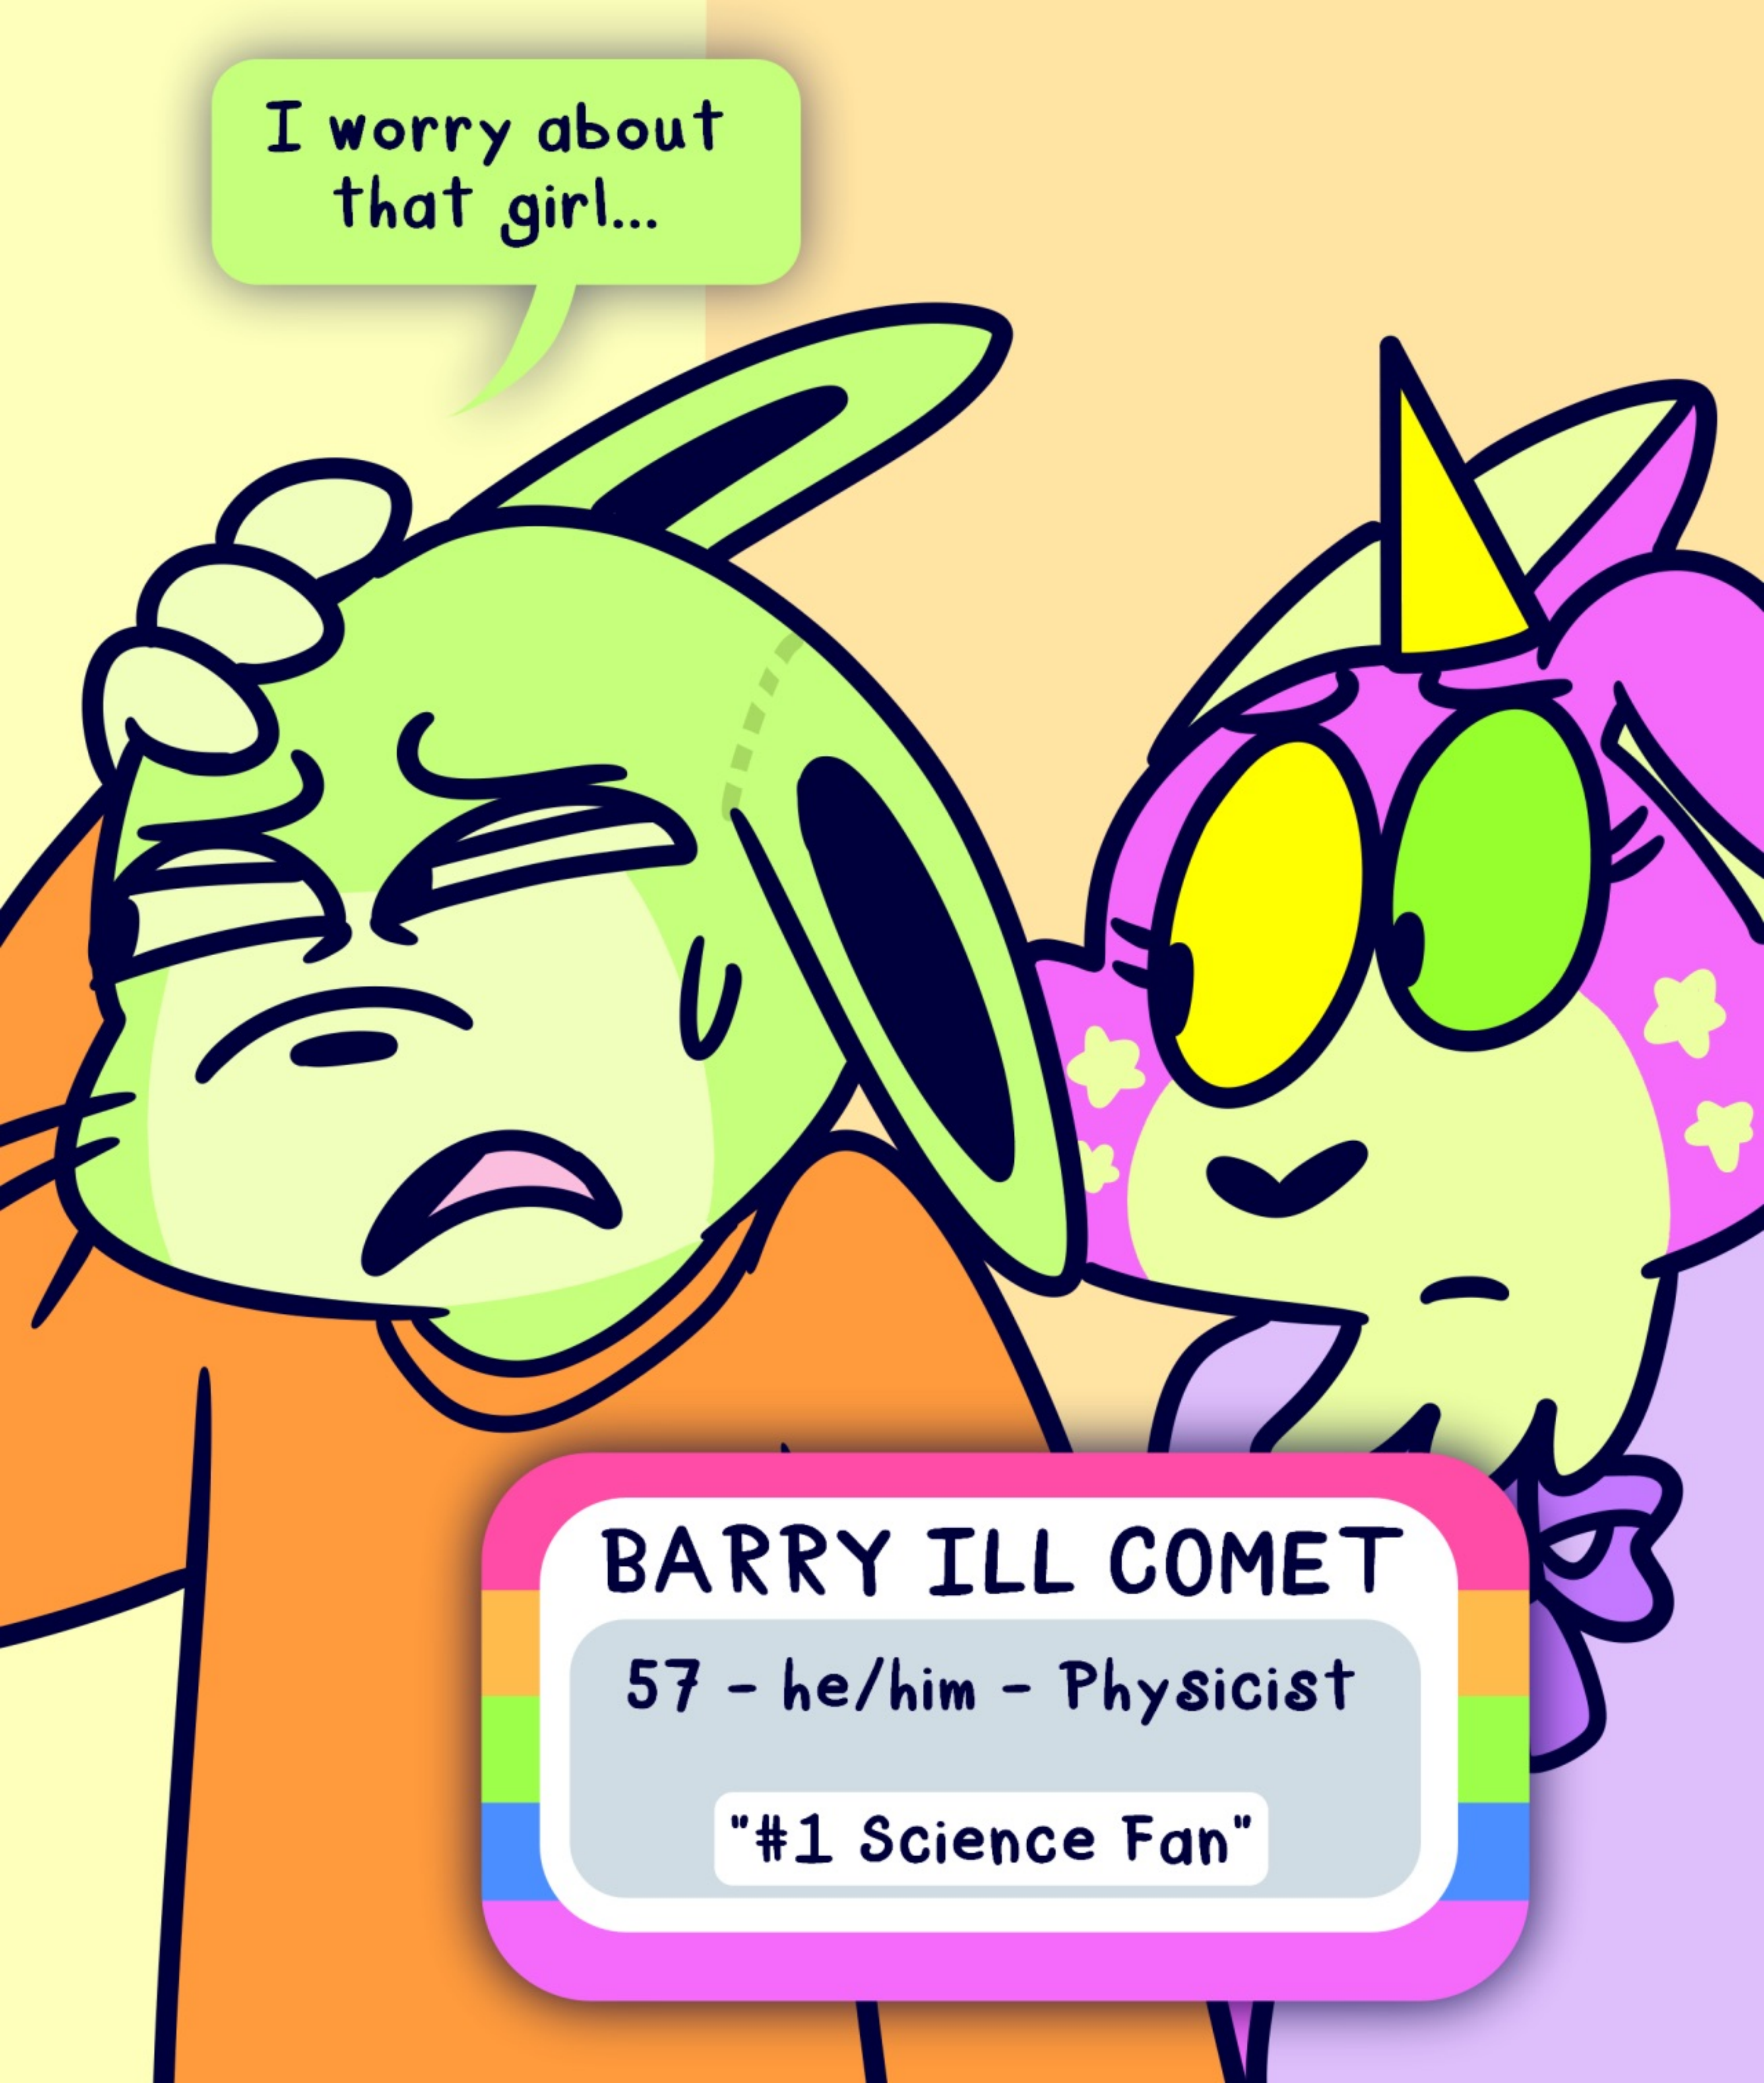

I know you two like to mess around with your siblings, but Carrie and Hemera are going to be here too and I don't like it when you two act out in front of our nearfamily. Do you understand?

Yeah, yeah. I understand.
Set a good example for your
younger siblings, yada yada.

A cartoon illustration of a light green rabbit with large ears, wearing an orange t-shirt. The rabbit has a frustrated or angry expression, with furrowed brows and a small, downturned mouth. A green speech bubble is positioned above the rabbit's head, containing text. In the background, there is a window with a brown frame and a red curtain hanging from a dark brown rod. The floor is white with some light blue wavy lines, and a portion of a yellow wall is visible on the left.

Ah, I'm doing quite alright, thanks!

A little stressed for various reasons, but it's not enough to dampen my mood!

Anonymous asked:

hey barry how is it like being so damn old

.....o-old?

What do you mean
"OLD"? I'm 57, that's
not old!

Anonymous asked:

eyyyyyy it's barry!! what's cookin for dinner?

Polly, Doom, and Frosty are making us lentil stew for tonight's visit!

I think it ought to be really good!

Anonymous asked:

Is polly still super sleepy?

Would he really be
Polly if he wasn't
sleepy?

Anonymous asked:

Yo barry, u still a virgin lol

.....t-that's.....
between me and my
partners.... and is none
of your business.

(Also, my children
are standing right
there...! Please
don't say that...!)

Anonymous asked:

Barry what's it like having like 6 kids and 3 partners

It's certainly a handful,
but I love our family very
much, even if it can get
a little chaotic around
here sometimes!

And my partners are
genuinely so wonderful.
We've raised equally wonderful
babies together.

Anonymous asked:

Have you told your kids about the glowstick incident?

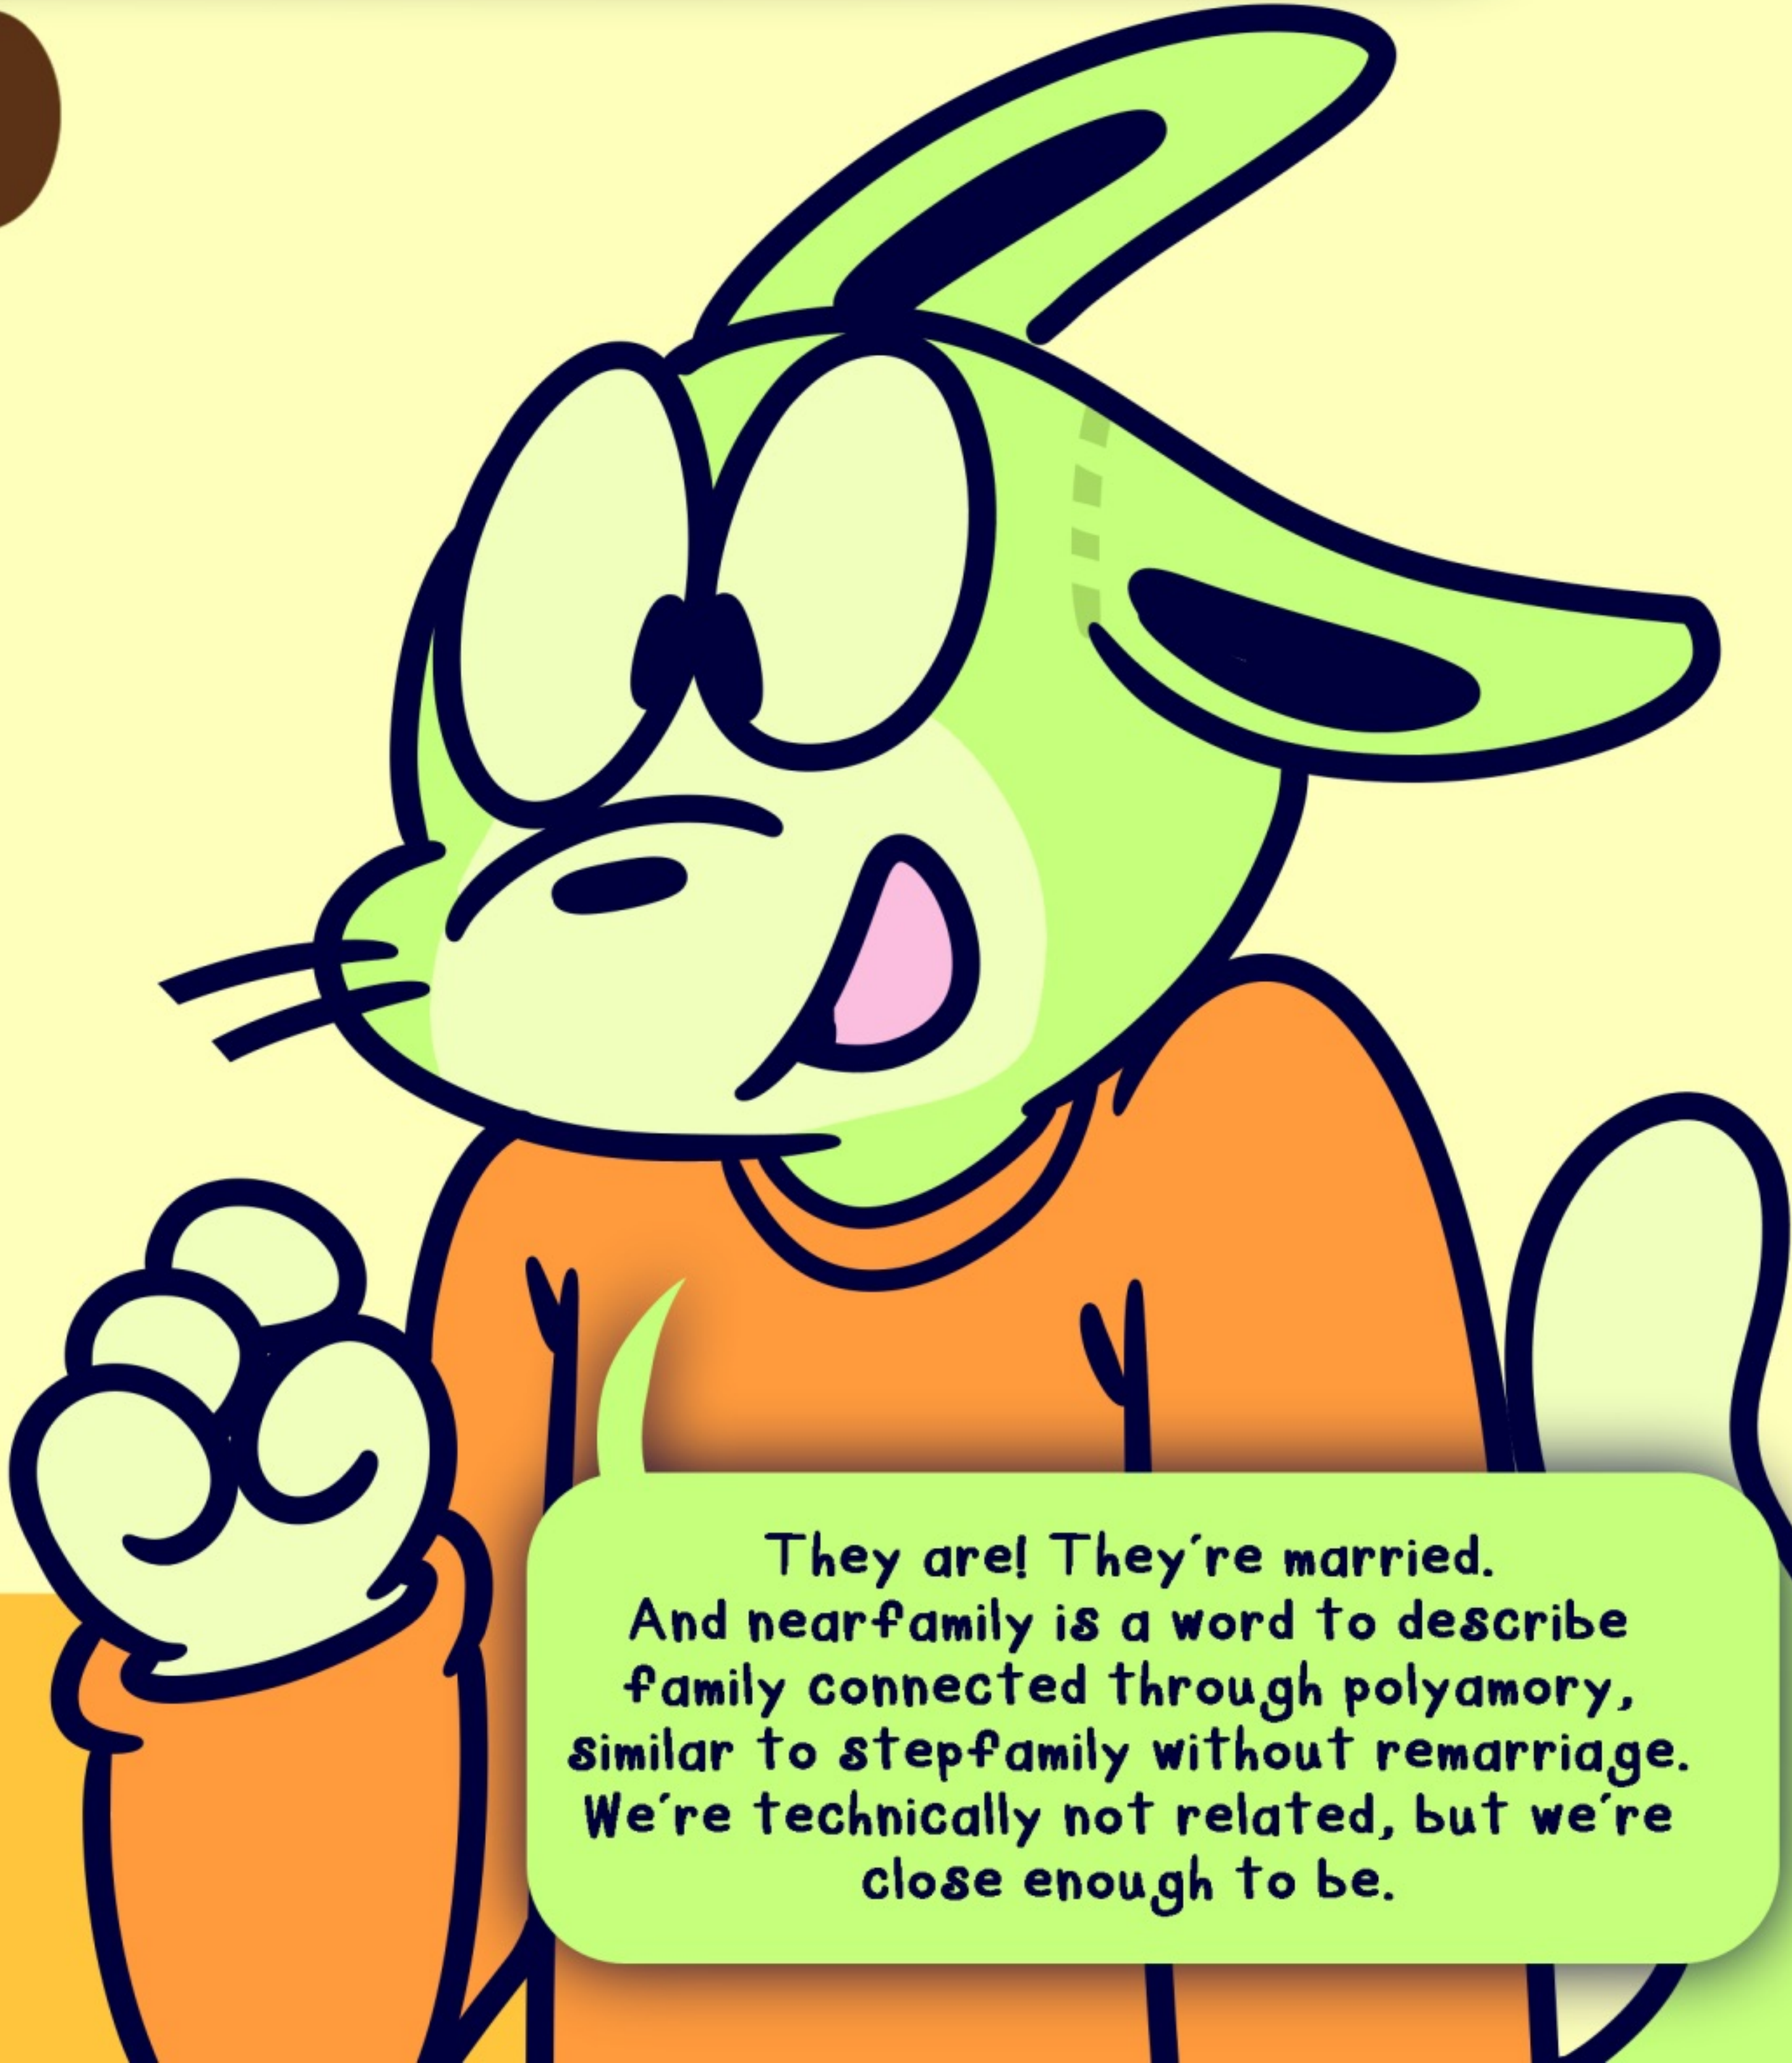

...you do realize I have to explain why I can't taste or smell anything to most everyone, right?

Anonymous asked:

Hey Barry! Question, one, are Carrie and hemera...a thing? And also what is near family?

They are! They're married.
And nearfamily is a word to describe
family connected through polyamory,
similar to stepfamily without remarriage.
We're technically not related, but we're
close enough to be.

Anonymous asked:

hi barry! who are chloe, norma, and blair? :O

Those are Carrie's kids. They're all very sweet. Norma often causes trouble with Eve, though... they tend to start a lot of problems around here. I asked Eve to try and behave but I don't know if she will listen... squeak never really listens to me...

Anonymous asked:

lol barry how will you know how good the stew is if you can't taste it? do you gauge it's vibes or something?

I can sense texture. I judge food by its texture.

I didn't say "taste good".

Anonymous asked:

I'm pretty sure your kids are old enough to know what sex is

...I-I know they know what it is, they're both adults, I just--

I'm not exactly comfortable discussing my sex life with them standing right there. I'm sure they wouldn't like hearing it, either.

Anonymous asked:

Hi Barry!!! If Polly and Doom are cooking right now, what's Uni up to?

You know, I'm not sure where they are. We have such a big house, it's kind of an ordeal trying to find anybody when you need them.

miles browns asked:

hi bearbear. Glad to see you're all living such a cozy (if
chaotic) life. What's life been like outside the cave?
Do the kids know about it?

...dad? You're quiet,
what's that one say?

...nothing.
It says nothing.

Anonymous asked:

Barry , can you swear now or do you refuse to do so ?

...I still don't **actually** like to swear. I do it sometimes, but I'm not like a sailor about it. I don't care as much when others do it, though.

The kids swear all the time, and I've just kind of grown used to it.

Anonymous asked:

So, did you guys ever get treated for your conditions?
Like does Polly still have the uncommon cold?

Unfortunately, TUC is not a curable disease, but there are proper treatments that help at least with some effects outside of the iciness like the pain and fatigue associated with the illness that Polly gets.

Uni's found a good medication combination to help him, and I'm taking a supplement that helps strengthen my immune system so I'm not getting sick nearly as often as I used to.

Anonymous asked:

Barry, do you believe in magic now?

I'm actually a scientist now, so you'd think I'd have more reason to be against it, but I've sort of accepted it.

Chem has brought me to be interested in studying the properties of magic and I've opened my mind to the possibility that magic CAN be explained with science, but I'm still wrapping my head around it.

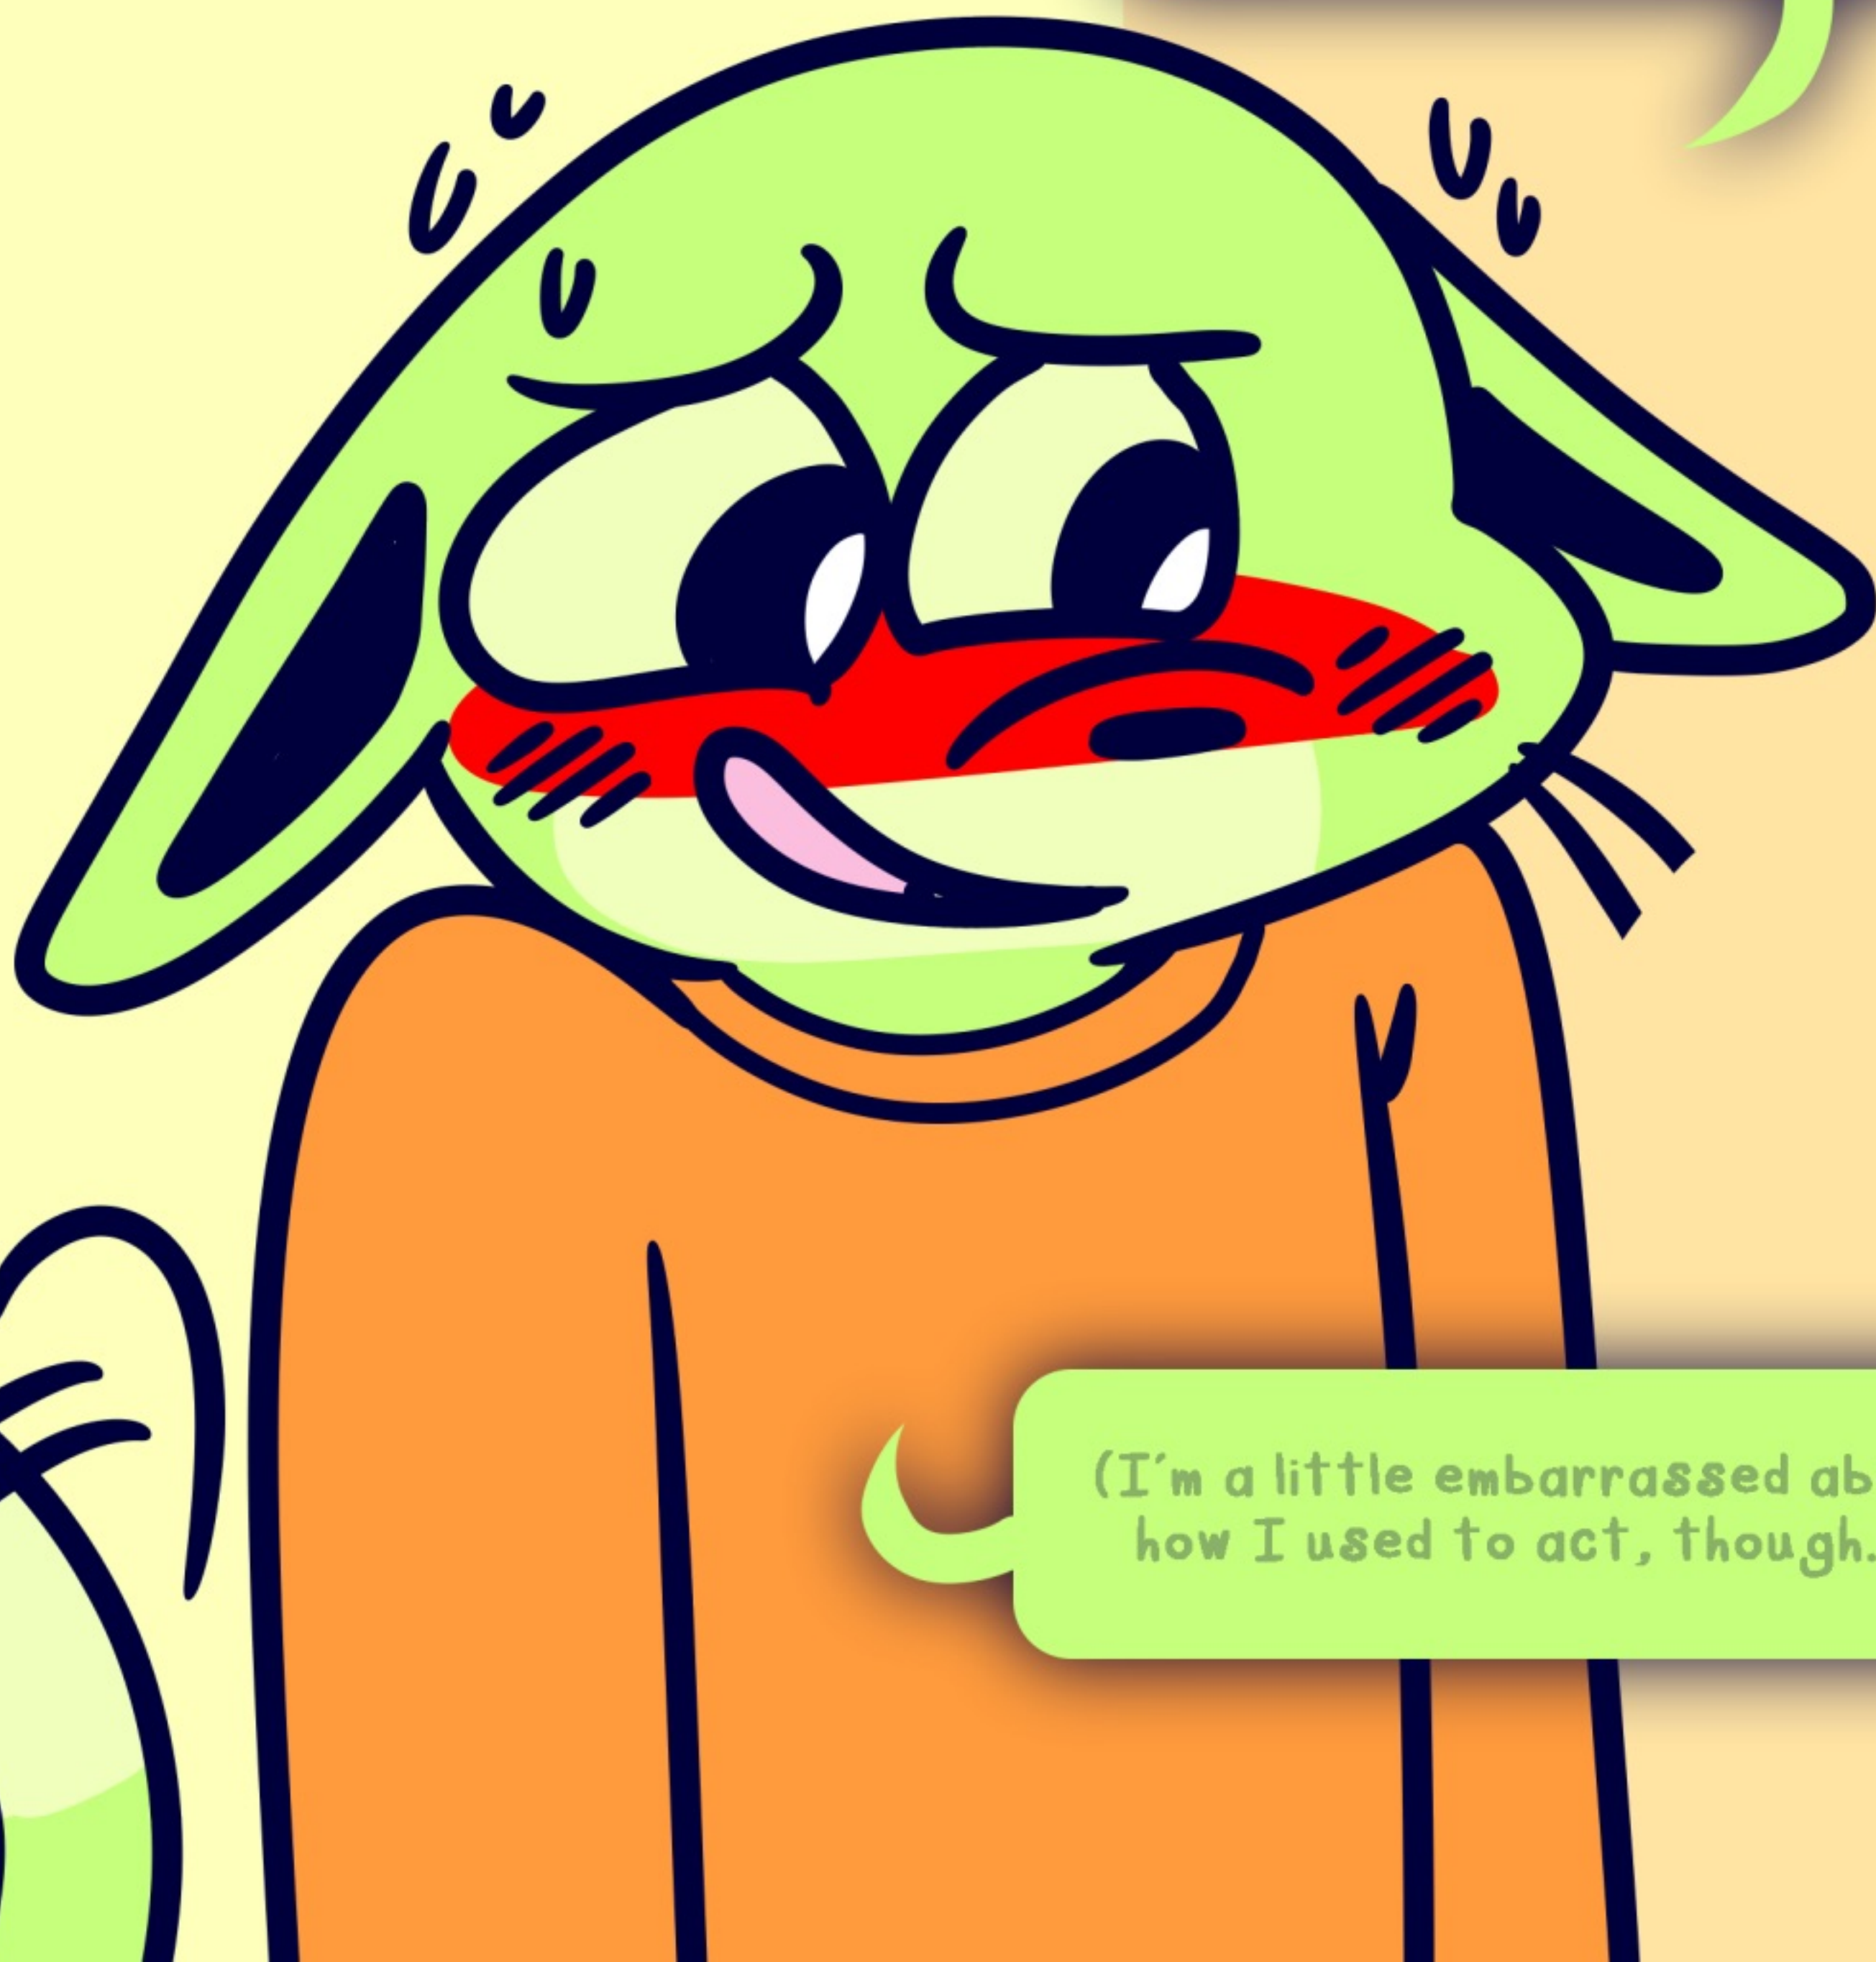

Anonymous asked:

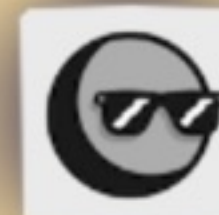

So you finally got with Polly! You must be thrilled.

O-obviously I'm over the infatuation stage by now, but I really do love Polly very much.

(I'm a little embarrassed about how I used to act, though...)

Anonymous asked:

Barry, I just want to say you're looking good for 57!

What's your daily routine?

Awww, thank you! You're very kind! And my routine is actually not much different from what it was when I was a younger adult!

Eating healthy and getting exercise and taking care of your body really DOES show in the long-term! It's all worth it!!!

the-mindless-demon asked:

Glad to see that you're doing ok, Barry!! How's everybody else doing? What are Uni, Polly and Doom up to these days? Is Doom still a ??

My partners actually all work in the art industry! They're all creatives!

Polly does sculpture art, Uni is a digital artist, and Doom works for an animation studio.

Anonymous asked:

Do you all go on vacations often?

YEAH, and
it SUCKS.

Anonymous asked:

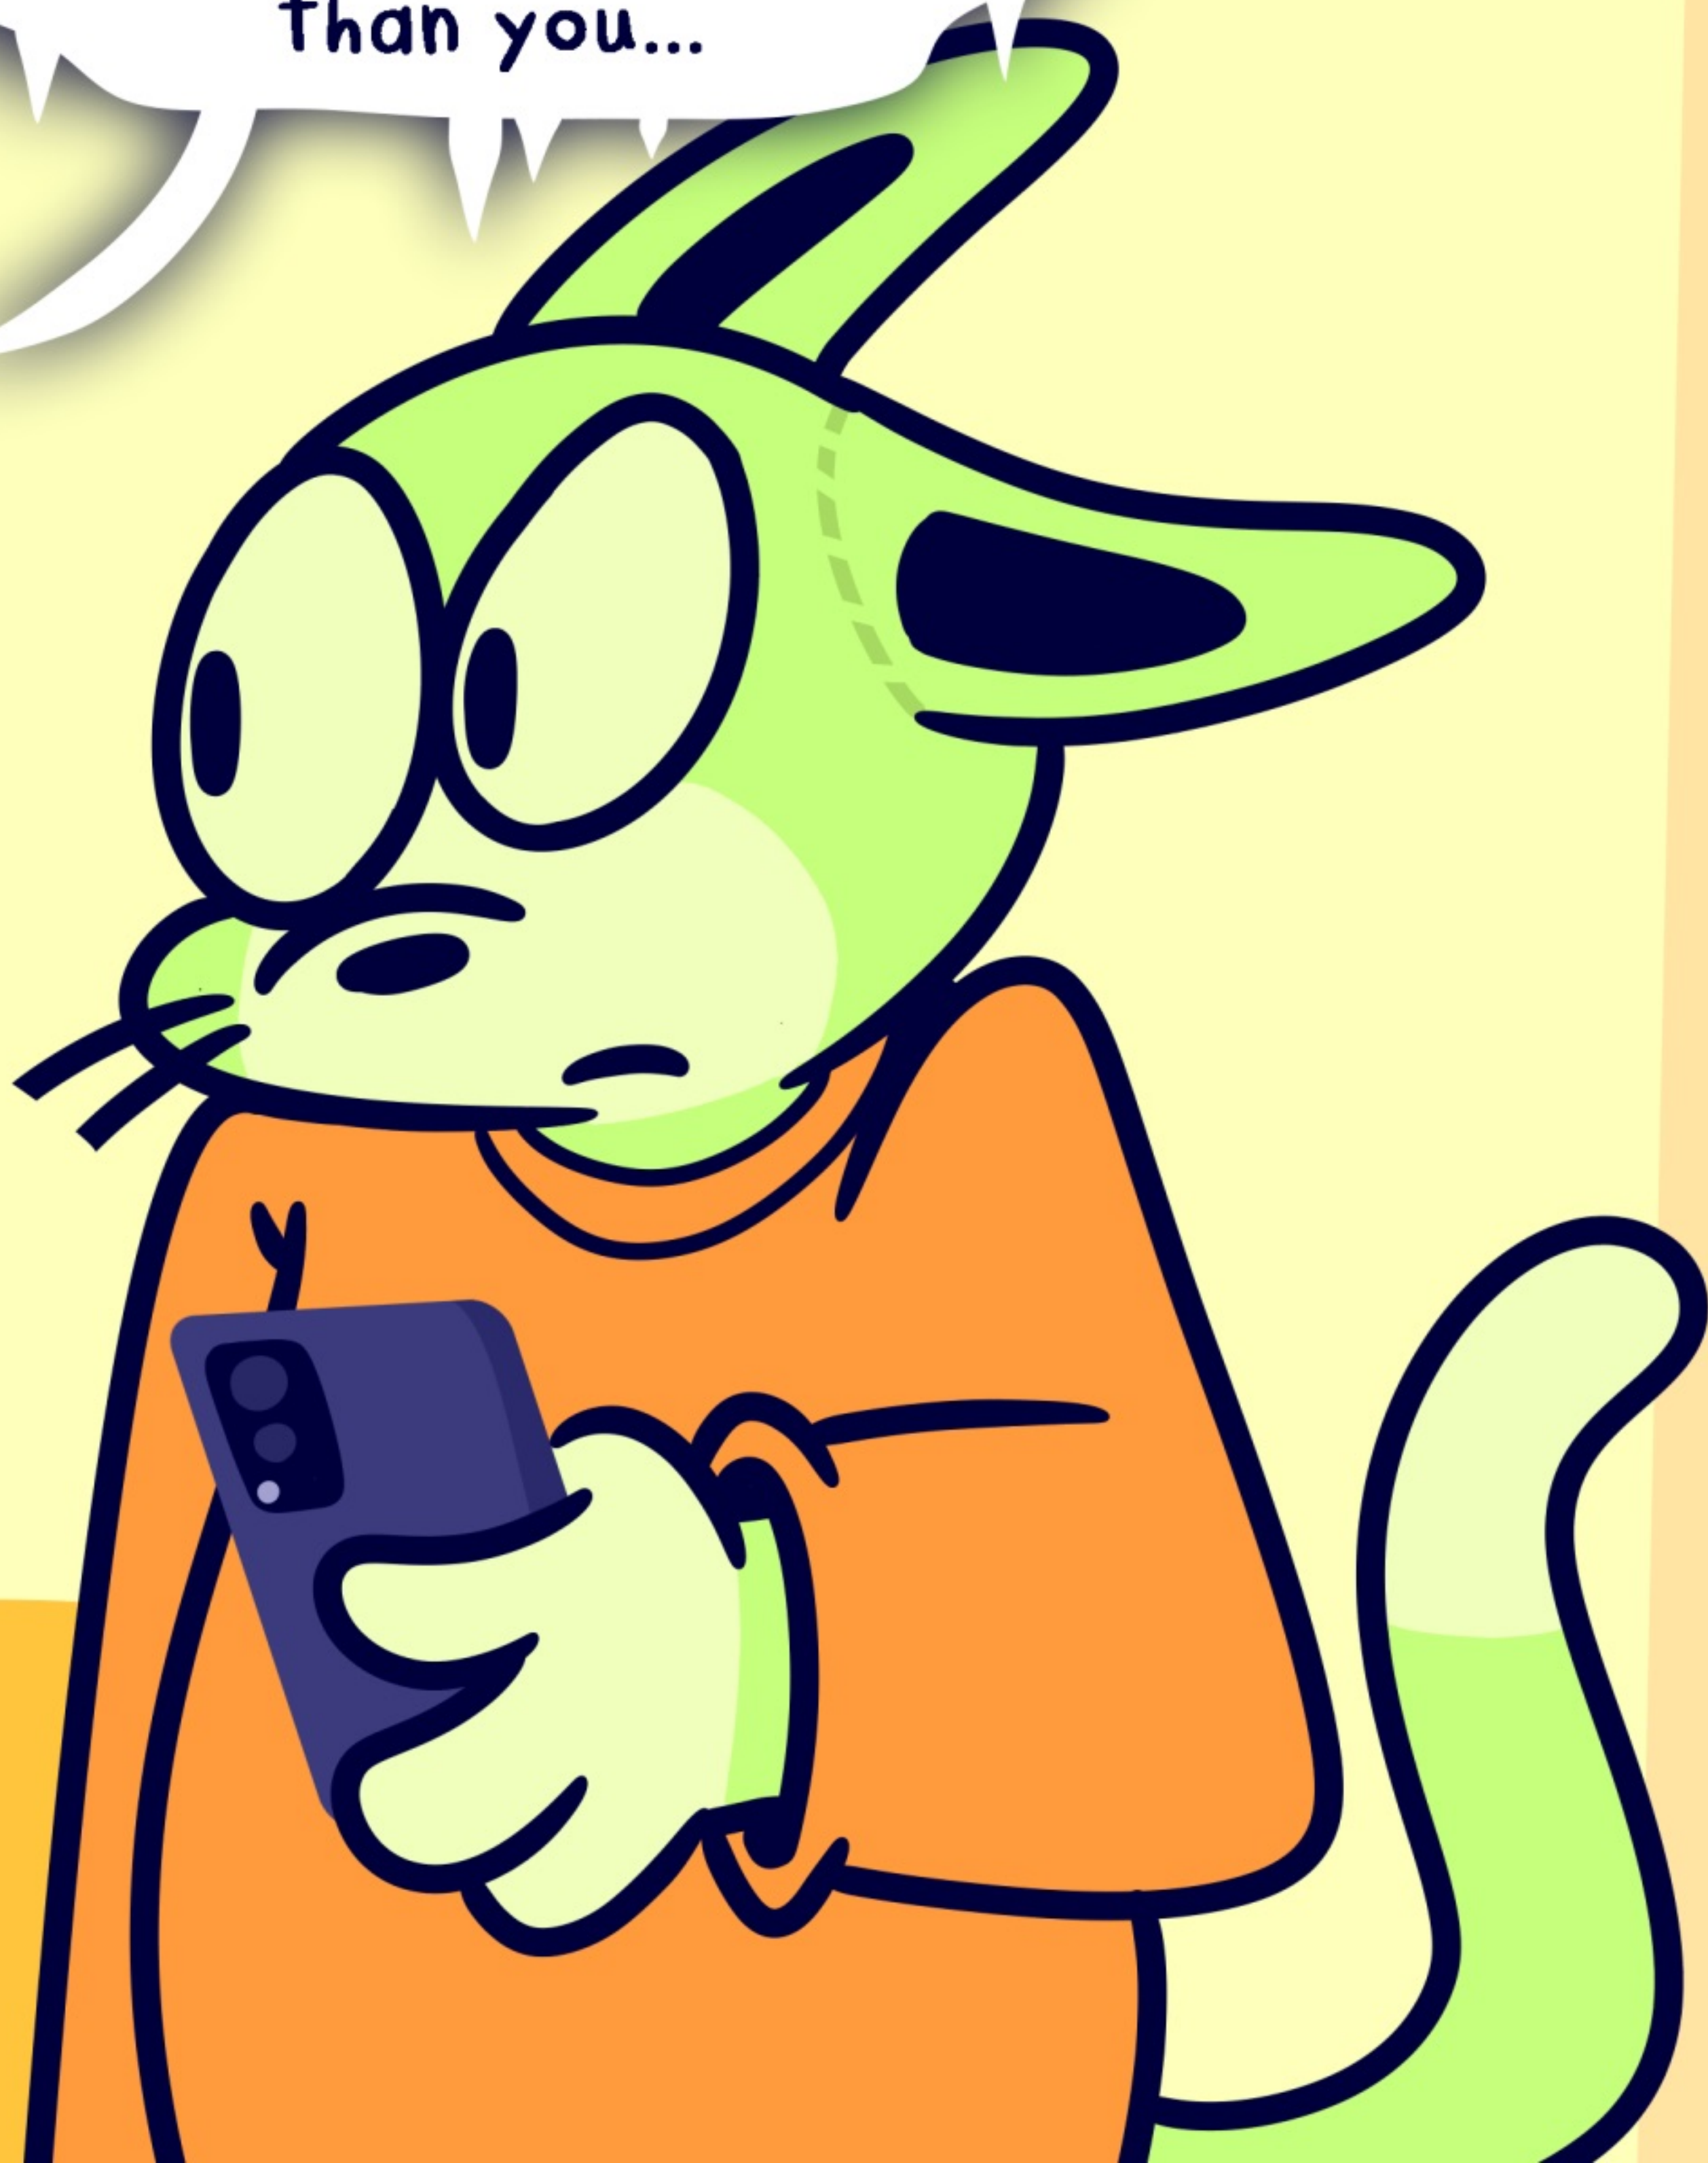

Alright, Daddy-o, let's cut the chit-chat and get some grub going. I'm hungry!!!!

Well, we can't eat until our nearfamily gets here... I wonder how dinner's going.

Anonymous asked:

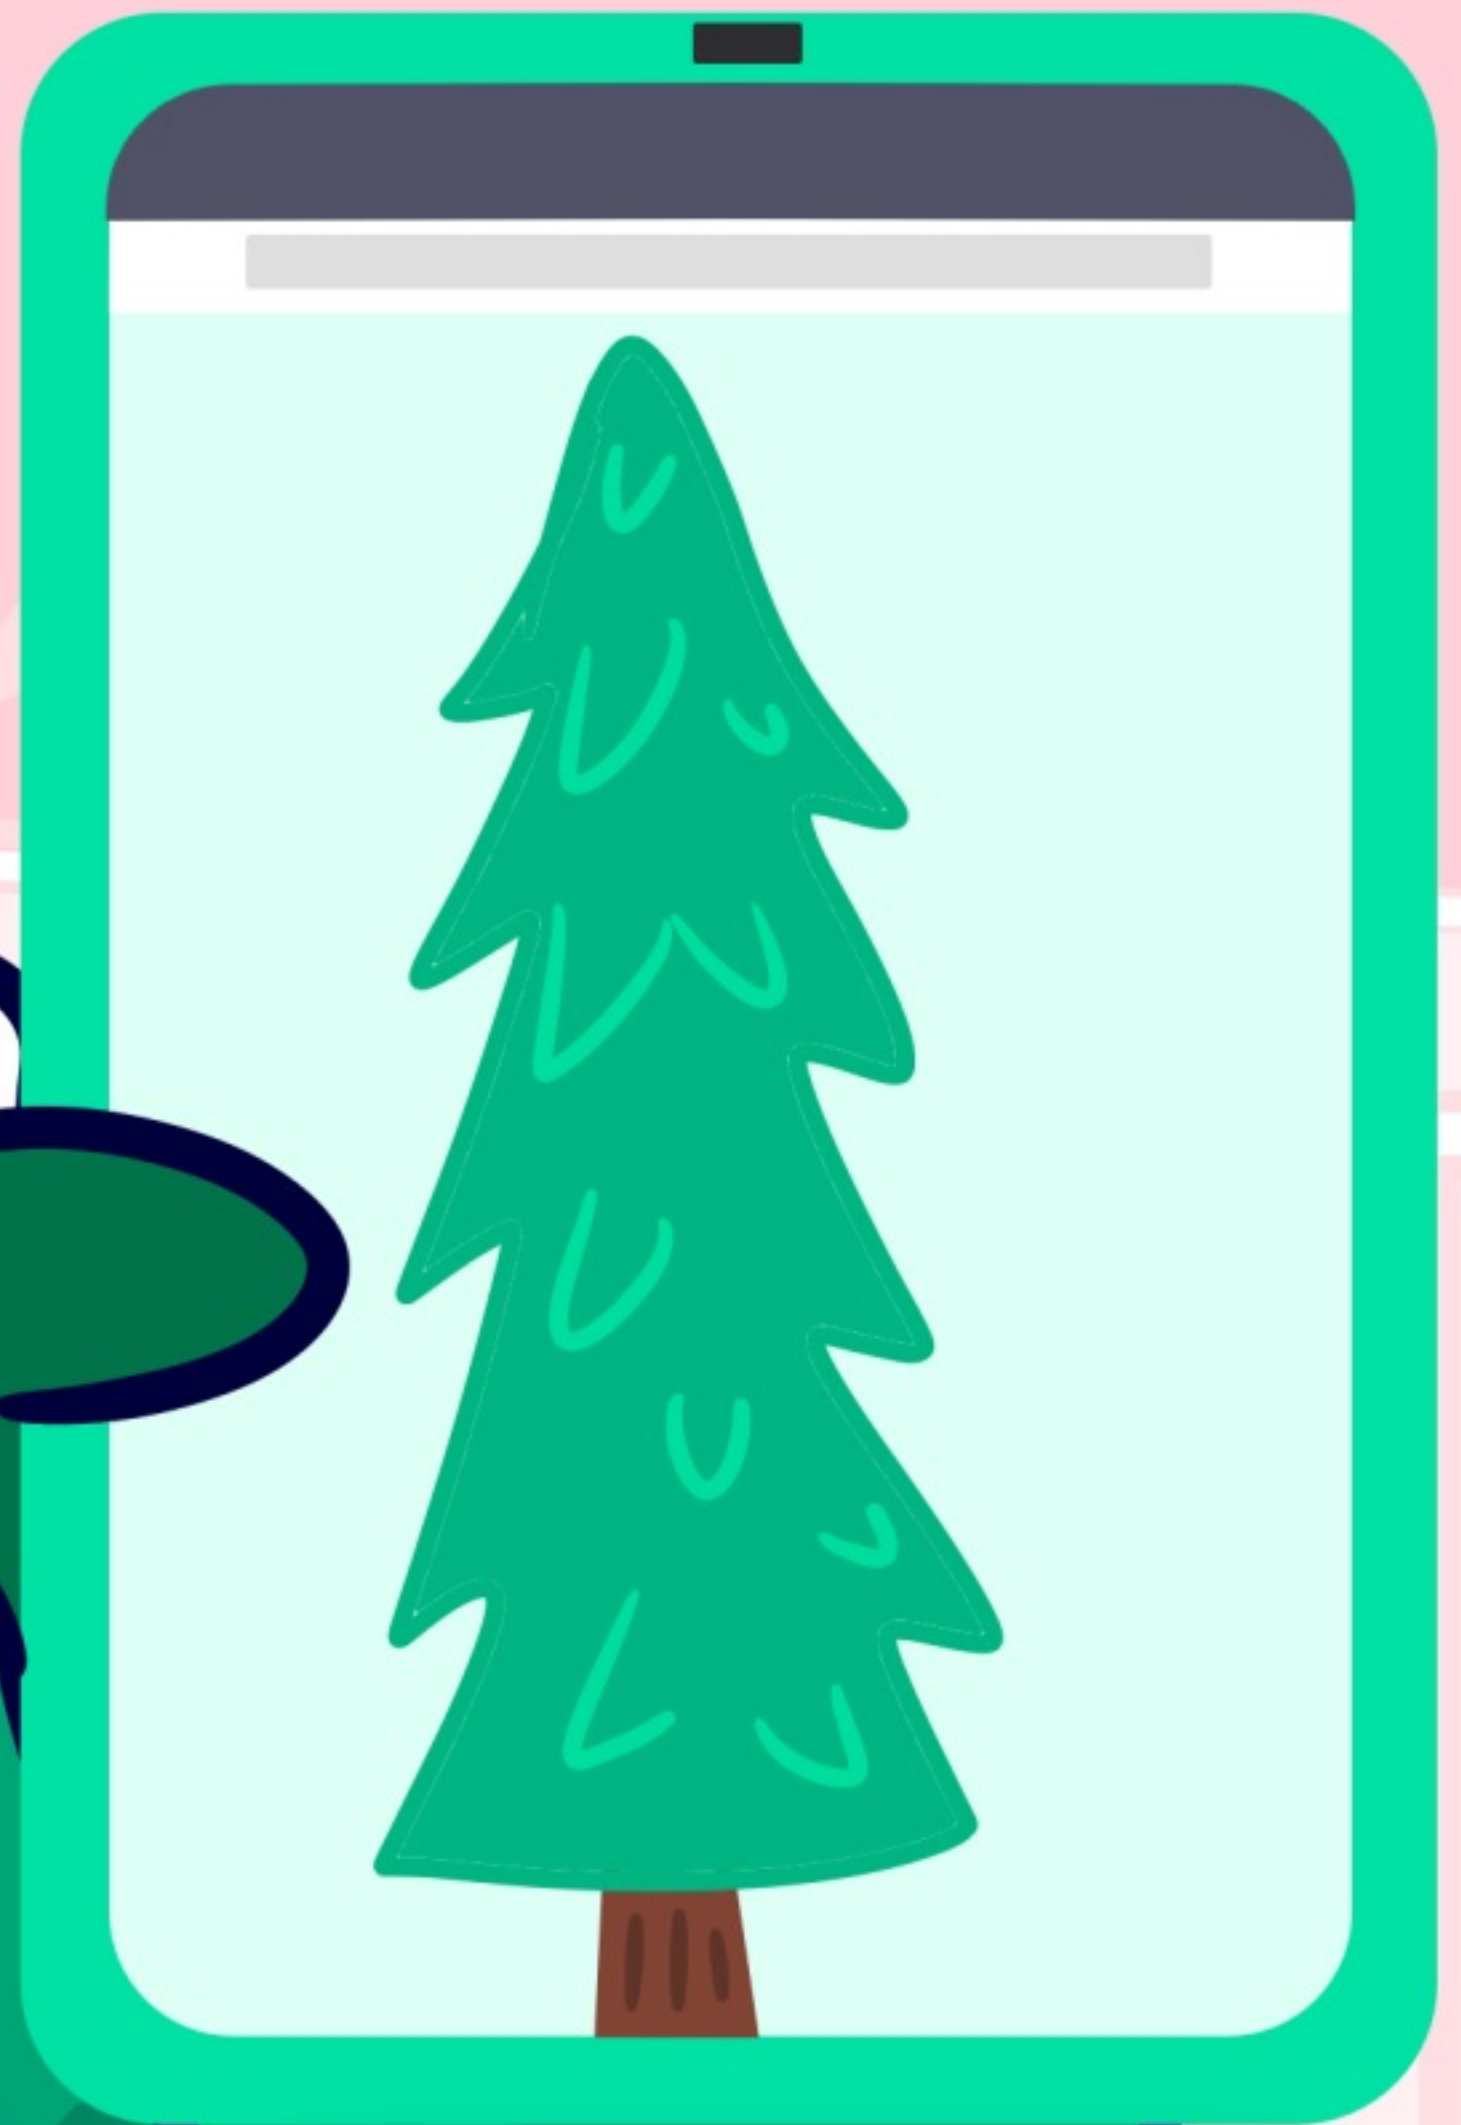

Hi Frosty!!! Mind telling us, the very trustworthy internet strangers, a bit about yourself?

I'm Frosty! I'm a hobbyist baker, plant whisperer, and all-around sleepy bitch. I have TUC, so I have to deal with a lot of things like my parent, but I've never let it get me down!

Anonymous asked:

Hey Frosty what's your favorite plant?

Famillie Great Pines!! They're the biggest, strongest, greenest, and the single best oxygen producers across all of Spinch! In terms of total CO2 conversion though, they're easily beat out even by your common ferns due to their limited habitable climates.

They like it cold, cold like me!!

Anonymous asked:

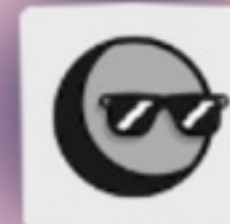

Frosty, are you always cold, even in warm weather?

Yes! TUC has the effect of reducing your core body temperature, which is why I'm always bundled up!! I pretty much always wear a heated vest whenever we have a gathering or go out anywhere. It keeps my wings from freezing up, too!

Anonymous asked:

Hi Polly! Are you usually the one who cooks or do you all take turns?

We usually take turns, but Frosty's essentially always in the kitchen, often so is Chem, but Chem's busy working on one of their projects.

foolishly-snowy asked:

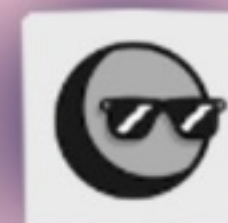

And for Polly, that approximate age makes me think your memory is still not fully back? Did you ever remember your hometown, or other important things? Do you still struggle with forgetfulness to this day?

...I still don't remember anything about my younger years, and I still have memory issues. I still use the same note system to manage my memory and it continues to help me, though.

I've kind of accepted not remembering, it doesn't bother me as much as it used to. I'm happy where I am now.

Anonymous asked:

Heya Polly! How did you and Barry get together after Barry's *strong* first impression?

...um... I think that's a story for another day.

meatballmongoose asked:

Ayo frosters, what keeps you so optimistic? You seem to mostly be looking at the glass half full, from what we know about you so far.

Because of TUC I have a hard time feeling emotions. I also have a hard time expressing them too.

Since positive feelings are easier to feel and express, I like trying to keep up the mood for others, too! Especially when I have people like Cream relying on me. Long story short, it just feels good to feel good.

Anonymous asked:

Hey frosty, will your wings ever defrost or will you never be able to use them?

I can at least use them for brief periods of time before they freeze up again, but as with anything some days will be better than others. Like I said before, my vest helps keep them warm to prevent that from happening so often!

Anonymous asked:

Frosty whos someone you look up to?

Cream! She's my best friend in the whole world. We do pretty much everything together! I'd do anything for her!

Anonymous asked:

Frosty whos someone you look up to?

Aside from her, I look up a lot to Sly! Sly... He gets made fun of a lot, and while it's very funny, I do admire him for who he is.

Anonymous asked:

What's your favorite stuff to bake, little dude?

GREAT QUESTION!!! I'M A BIG FAN OF THE DESSERT CLASSICS -- COOKIES, CAKES, AND BROWNIES!!

I think cakes are my favourite -- they're so versatile and can basically be an art project in and of itself. Decorating is so fun, especially when it's for something or someone special!!

milezprower asked:

Marco channeling his inner spider by eating pasta like spinning silk

...I'm actually afraid of spiders. Which doesn't make sense. Because I am a spider.

But to be fair, I was scared of teenagers while I was a teenager. Honestly I still am.

somepersonyoudontknow asked:

Hey Marco, do you play Horror Games? I wouldn't blame ya if you didn't or did

I watch playthroughs of them sometimes, but I can't really play them myself because I get too jumpy and freaked out easily. It's funny watching KneeTubers get freaked out by them though.

They should be here
in a few minutes.

Norma's gonna
be here soon?

...yeah, she is.

Sly, I wouldn't--

Don't worry big bro, we'll
keep our distance, we wouldn't
wanna get too close to you--

Anonymous asked:

Hi Eve! Can you tell us a bit about yourself?

WELLLLLL... my name is Eve -- well, it's Evelyn but that name is DUMB so I'm Eve instead. I like baseball and being a little menace to my poor family.

Anonymous asked:

Hey Eve! Given your name is Eve III, we need an evil scale. Just how evil are you? Do you have plans to become more evil?

I mean... I haven't killed anybody. Yet. Or maybe I have and there's a coverup.

...
I'm kidding.
Maybe.

You never know.

milezprower asked:

Eve, what's your connection with Norma like ? Why are you so excited to see her ?

Norma's my BFFLF!!! We're partners in crime and LOVE to cause trouble together!!!

She's always got my back, and I've got hers!!!

Anonymous asked:

hey Eve, why are you dogging on your brother like that?

Cuz he's a LITTLE STINKY

Anonymous asked:

What's your favorite and least favorite thing about Sly?

My favorite thing?
He's so tiny and pathetic,
he could shout at you and
it sounds like you're being
yelled at by a little bug.

My least favorite thing
is that I can't dedicate all
my waking hours to
annoying him.

you sure cover a lot
of ground in your schedule
already

Anonymous asked:

hey Eve, hows high school?

Ehh.. I don't really care for it too much. Pretty much the only class I enjoy is gym class, obviously. Everything else is boring. I have some nice friends though, so I guess that's pretty cool.

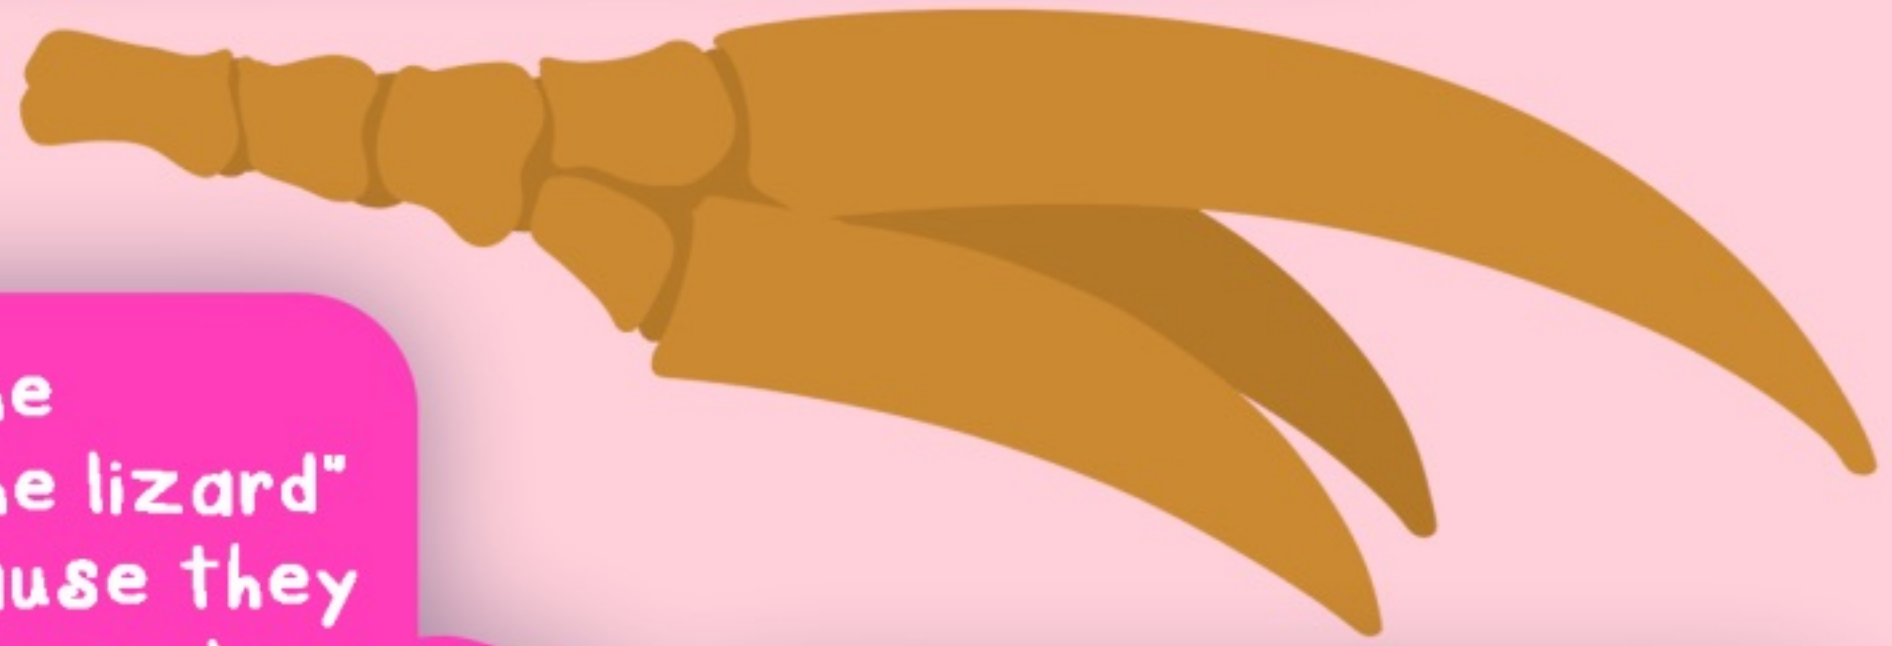

doatunny asked:

eve , what's your favorite dinerry ?

Personally, I really like the therizinosaurus! It means "scythe lizard" and it's a very fitting name, because they had front limbs bearing 3.3 feet long claws like scythes.

It's only been identified from a few bones including those gigantic claws. The claws are thought to have been used for cutting through plants and to defend themselves against other dinerries.

3.3 feet -- that's taller than Sly!

I-IT IS NOT! I'M NOT *THAT* SHORT!

Anonymous asked:

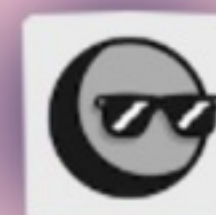

Eve, do your parents often tell you to stop bugging your bro? though he is very stinky.. you could just dump soap water on him instead of bullying him. you know. To Help :3

TRUST me, they're ALWAYS telling me to knock it off and leave him alone. I don't see what the big deal is, I'm not being SERIOUS, I'm just teasing him.

Anonymous asked:

how many new mean words has eve invented?? how often does squeak invent them???

It's a work in progress.

Anonymous asked:

Do you like dinerries' s a lot ? Also wanna tell us some neat facts about them or stuff?

Well, it's generally believed that dinerries were wiped out in a mass-extinction event caused by the oceanic supervolcano Goda mountain, which is so big that it goes deep into the ocean and sits beneath the Goda islands off the coast of Mowtha. Goda mountain is considered the deadliest force on the entire planet because it's capable of basically wiping out all life on Spinch.

Some people believe that they weren't actually wiped out though-- there's this one theory (not endorsed by most scientists) that they actually migrated underground, and the fossils discovered in the ground are not actually as old as people think.

This is obviously a pretty silly theory. There's not a lot of evidence to really support it, especially considering land formation and the way the fossils have been dated by professional archeologists and such.

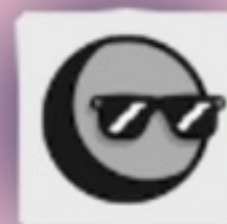

Anonymous asked:

I loooove your shirt eve!! where'd you get it, and do you wear it a lot or just when guests are over- or do you not care that much about ,yknow, formal junk??

Oh, no, this is what I always wear! This isn't really a fancy party or anything, it's just family coming to visit for dinner.

Anonymous asked:

Hey eve, can you read just ONE word out of your...
Bitchionary? I'm quite curious.

No can do, I'd probably
get grounded for like, a year
if my dad heard any of these
and knew I was saying them
to Sly. So, sorry.

Anonymous asked:

eve, what would you do if someone was actually mean to your brother?

When we were in middle school, Sly was getting bullied by somebody in an older grade.

A cartoon illustration on a blue background with a white speckled pattern. In the upper right, a man with a large head, wearing round glasses and a white shirt with a tie, has a stern expression. In the lower left, a woman with a smaller head, also wearing round glasses and a white shirt, looks up at him. A black speech bubble is positioned near the man, and a yellow speech bubble is near the woman.

I stuck up for him against
this jerk. And when he asked
me why...

W-why did you
defend me?

A cartoon illustration on a blue background. On the right, a girl with large round glasses and a determined, slightly angry expression looks towards the left. On the left, a boy with large round glasses and a surprised or nervous expression looks back at her. Both characters have spiky hair and are wearing simple clothing. The drawing style is simple with thick black outlines.

I told him...

CUZ BEING MEAN TO
YOU IS MY JOB. NOBODY
CAN BE MEAN TO MY
BROTHER BUT ME!!!

....and because I care
about him. Obviously.

Anonymous asked:

Eve, ur dinerry knowledge kinda makes you a nerd as well....how do u respond

Maybe having knowledge gives me the likeness of a nerd, but all my swag and coolness cancels it out. Dinerries are cool.

Anonymous asked:

What's your favorite sport? Also, favorite food/drink?

My favorite sport is definitely baseball! I've been into it since I was 11, I play it with Norma all the time and I play on a team!

And I like all sorts of junk food.

doatunny asked:

eve , how does it feel to be taller than your older brother
, sly

do you find it funny that you're taller than him

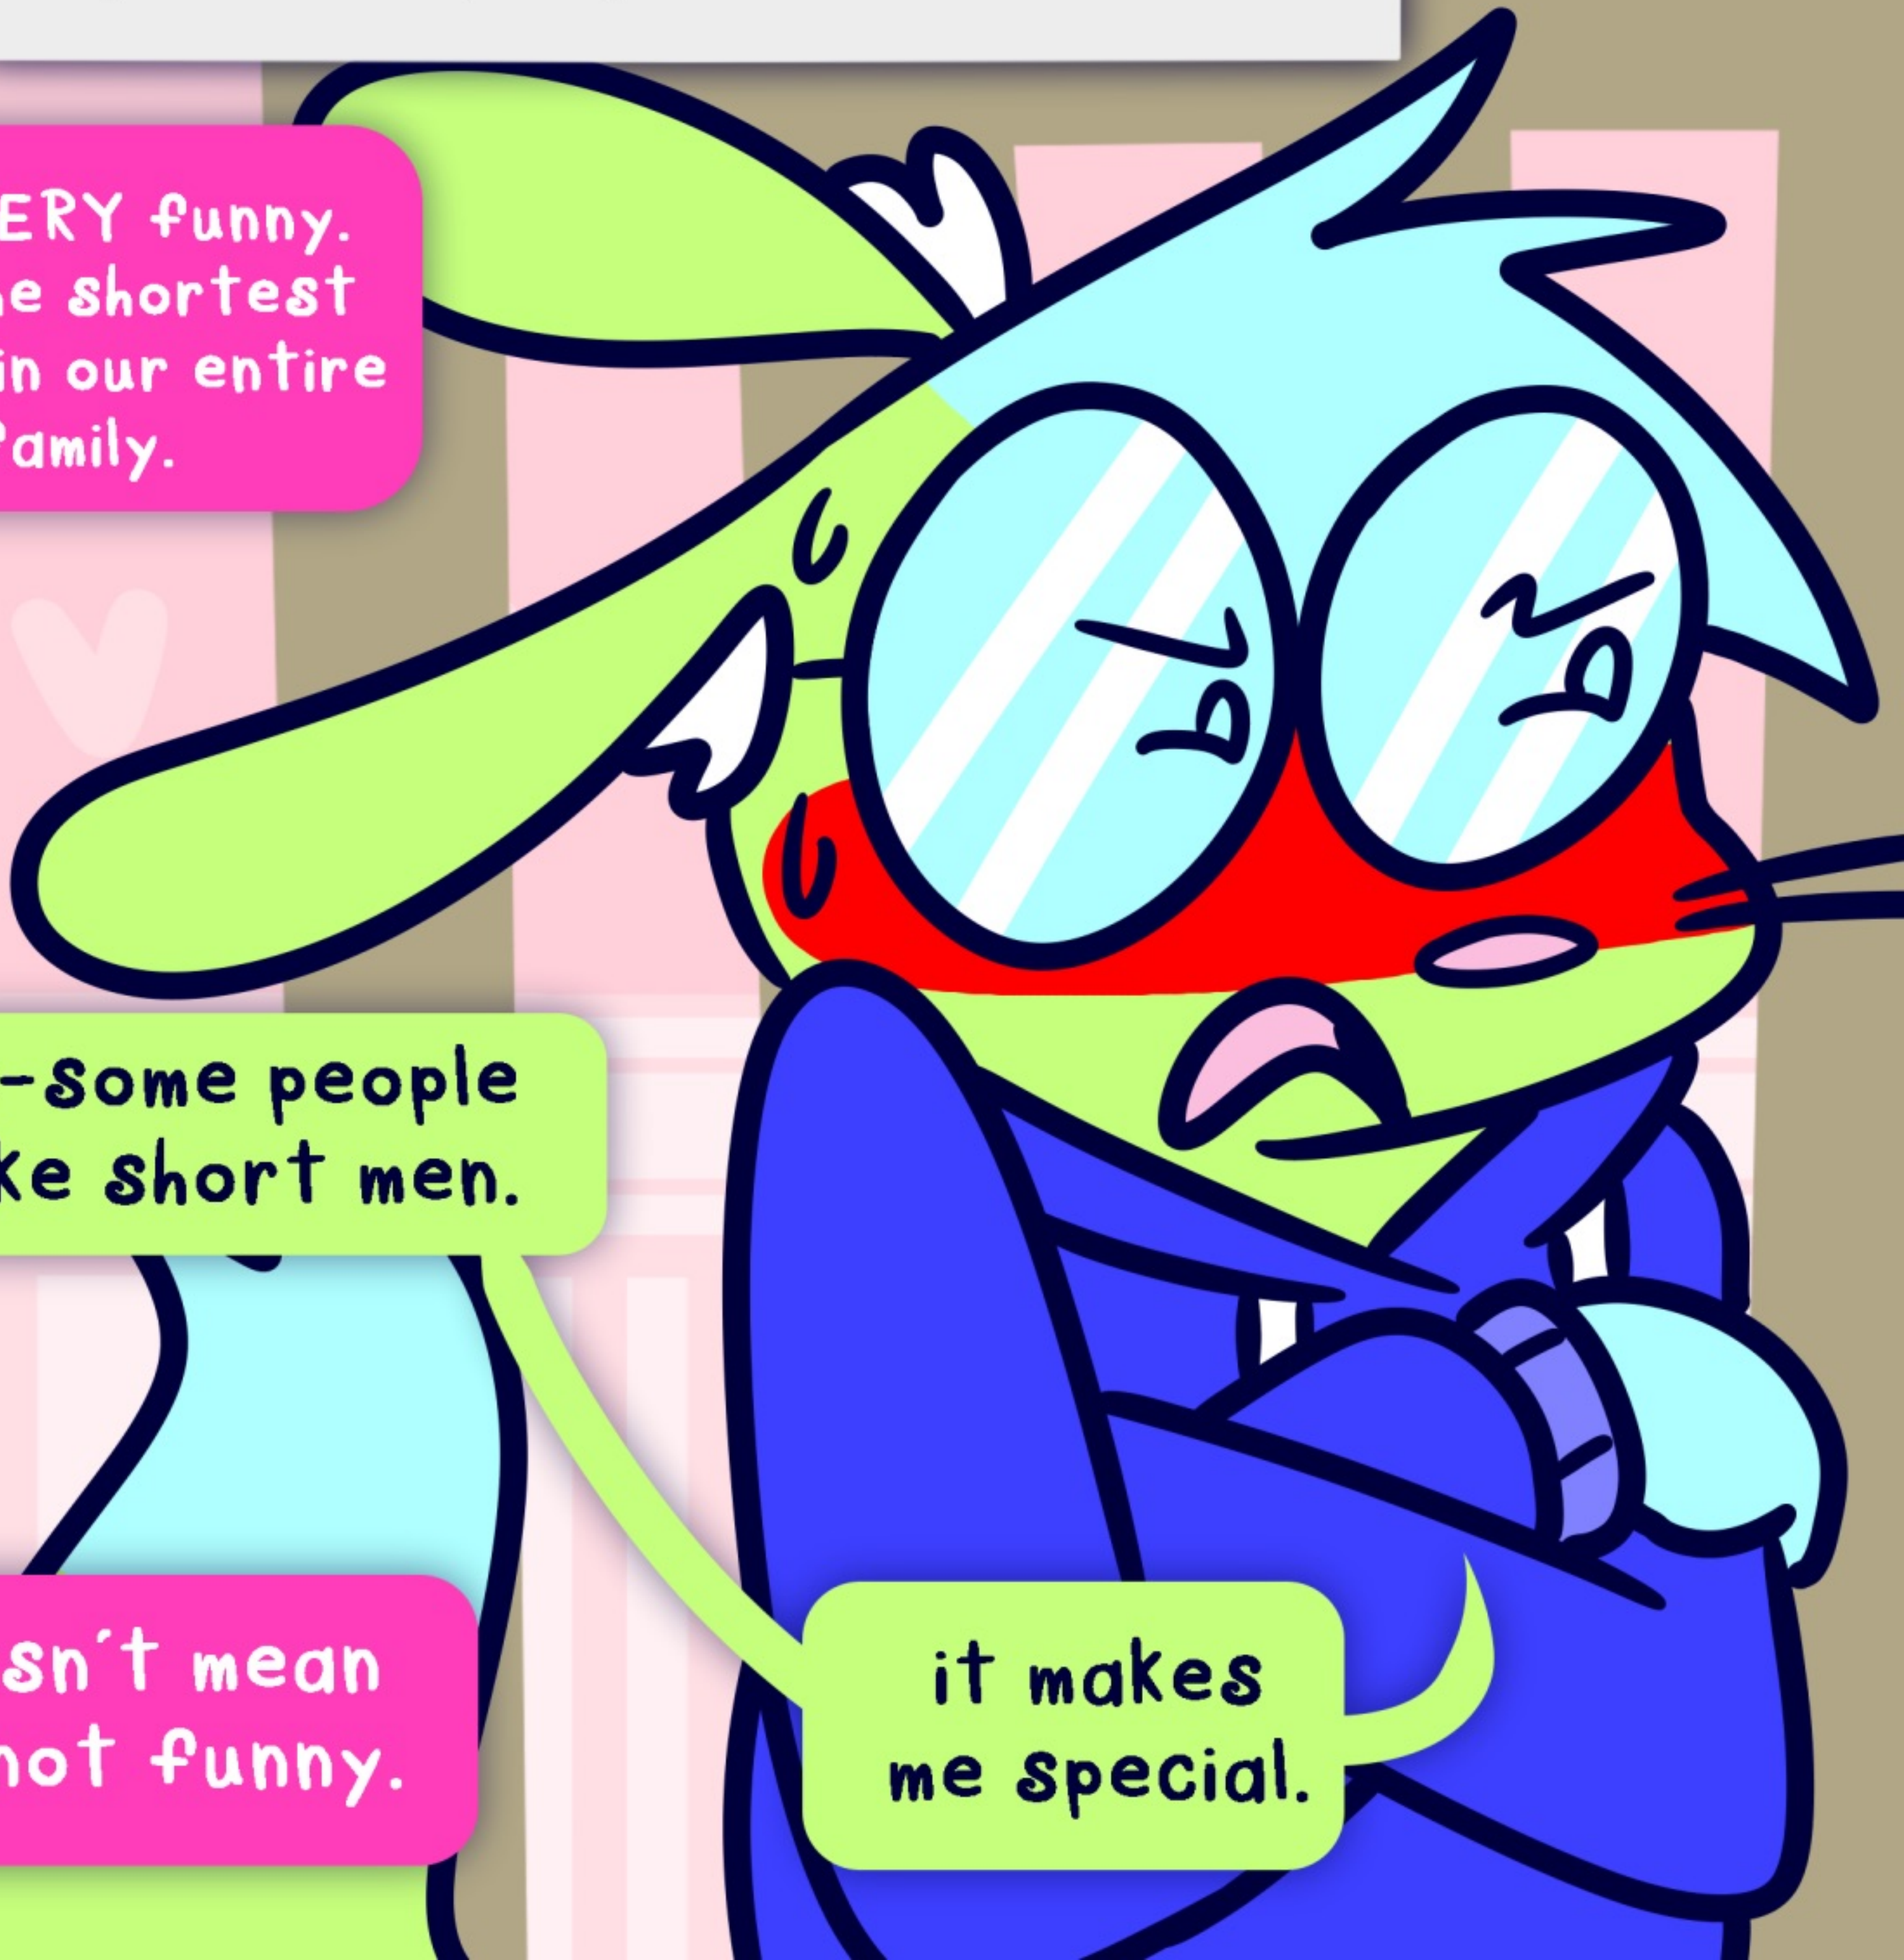

It's VERY funny.
He's the shortest
person in our entire

S-Some people
like short men.

Doesn't mean
it's not funny.

it makes
me special.

HELLO, CHEM!

HI CHEM!!! Tell us about yourself!! (We are very trustworthy)

That does not inspire great confidence. Uh. I'm Chem! I like making robots and things that blow up! I also love cooking and my toy collection.

Anonymous asked:

Chem what's your favorite science subject?

I like robotics and chemistry best! They're very broad topics and there's a ton of things that just haven't been explored in detail yet! I like the idea of being the first person to do some of the things I'm doing!

Anonymous asked:

chem!! whats your favorite color? also do you have any sight issues? I see that you have glasses

Uhhhh, Blue probably, like sky blue.

And my vision problems are not severe, these are primarily readers! I'm kinda nearsighted. Once I'm old enough to drive they'll probably help with that too though!

Anonymous asked:

hey Chem, are Uni and Doom your parents? Its sort of hard to tell with your features lol

Well yeah they're like. Half of my parents! Polaris and Barry are also my parents! I'm pretty lucky on that front.

doatunny asked:

do you have any robots that you've made or they still work in progress ?

They're mostly works in progress! I've got some things put together but nothing super impressive unless you think an arm that can water a plant is impressive...

Which I do, but I'm biased, it's mine.

Anonymous asked:

Chem, do you have multiple limbs like Doom, or just the tails?

Boy I wish; it'd make multi-tasking way easier. But nope! Just the regular set-up aside from my awesome tails.

kp-does-suff asked:

I like your lab coat Chem!

Well thank you! It was a gift, I wear it pretty much as often as I can besides when it gets extremely cold! It's good for lab safety too!

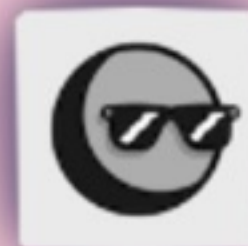

Anonymous asked:

bet you ten bucks that sly gets along with chem because they can't smell the STINKY /lh

I have no point of reference, Sly's apparent smells remain theoretical to me. We do get along.

Anonymous asked:

Chem, what's your favorite show/media?

I like a lot of stuff
that's a bit.... Archaic?
A lot of my parent's favorite
shows have become my
favorites, Bingo Bongo
Theory and similar.

Anonymous asked:

Hey Chem, whats your favorite food and drink?

I don't know if I could choose a single favorite food, there are so many excellent options... I like pasta a lot I suppose.

Beverage wise I'm a big soda fan, although water is good too.

doatunny asked:

chem , what do you think of your other extra limbed siblings ? (Marco and cream)

On the topic of the extra limbs, jealous.

On any other topic they don't share many characteristics at all, unless you count my friendship with both of them, which is nice.

confusedcriminal asked:

Chem, do you get along with all your siblings?

Ally scares me a little
with kits magic... but I like
to think that I get along
shockingly well with my
entire family...

somepersonyoudontknow asked:

Hey chem, what subjects do you take in school? What's your favorite one out of them all?

I'm currently taking math, a biology class, a computer design class, history and Countrountrish. You'd think science would be my favorite class but I sorta know what we're going over already so I guess history?

Anonymous asked:

cyberp4wz asked:

HEY UNI!

YOUR HORN USED TO BE YELLOW, BUT IT'S PINK NOW. WHAT HAPPENED?

My horn has always been able to change colors, from emotions to touch-response, but a while back I decided to just... change its default color. Which is a thing you can do!

I think it goes better with my glasses.

Anonymous asked:

Uni, sorry if this is triggering, but do the kids know what's behind the goggles?

so, uni, did you ever get to find the vending machine
cinnamon rolls again?

I did! I found out
the brand, they're called
Winnamon Rolls and they
still make them and we buy
little packs of them often!

doatunny asked:

do you order wcdonalds for the kids for when you have no idea what to eat for lunch or do you just do it randomly

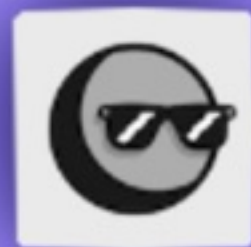

We just do it randomly, sometimes the kids don't want anything else and sometimes we're just a bit too tired to cook. It can get exhausting looking after so many kids all the time...

Anonymous asked:

Hey Uni, what was the wedding night like?

Oh, it was wonderful! We got married in Barry and I's hometown, because it's so rural the sky was full of stars! We were so watchful of the weather to make sure it would be perfect!!!

Something I think...
we're still learning...

It always gets better.
